Flow rail has a red sleeved 0-4 l/min double regulating flow meter per circuit. that allows individual circuit flow regulation and isolation with visual flow indication.

This rail comes complete with an integrated 1/2" FBSP hole on the upper and lower side, ready for drain/fill valves or air vents.

Outlet connections are 24x19 thread for use with Emmeti monoblocco connectors, see section 9, Manifold Accessories.

For MLCP (MultiLayer Composite Pipe) and press fittings to accompany this range please see section 1 Gerpex.

For plastic or metal mounting brackets, blanking plugs, manual or automatic air vents, drain fill valves and ball valves as shown in the schematic overleaf please refer to the following sections; section 9 Manifold Accessories and section 16 Ball Valves.

To change the flow meter range, please refer to section 9 Manifold Accessories.
