Flow rail has a red capped double regulating lockshield per circuit that allows individual circuit flow regulation and isolation. This rail comes complete with an integrated 1/2" FBSP hole on the upper and lower side, ready for drain/fill valves or air vents.

Outlet connections are 24x19 thread for use with Emmeti monoblocco connectors, see section 9, Manifold Accessories.

For MLCP (MultiLayer Composite Pipe) and press fittings to accompany this range please see section 1 Gerpex.

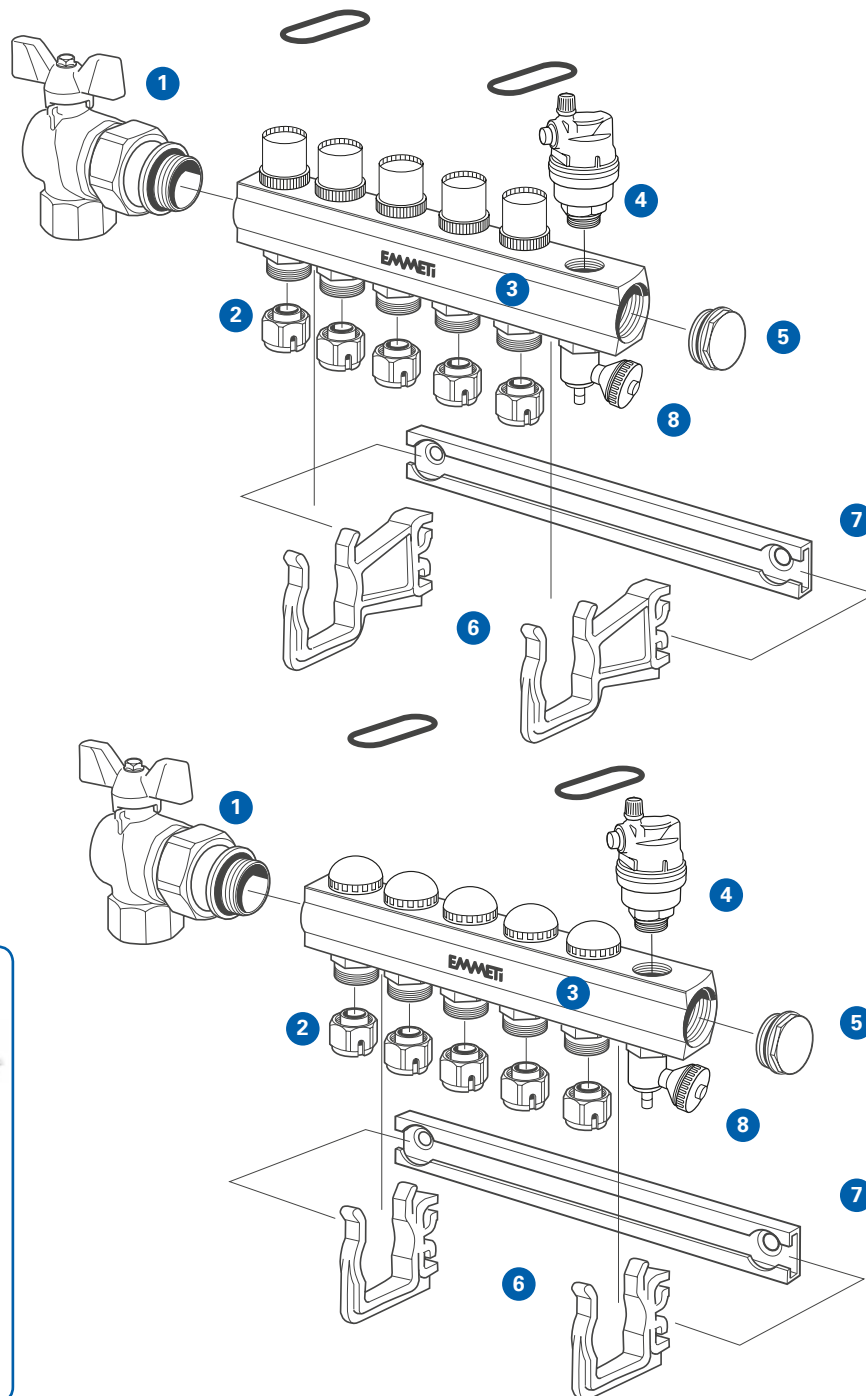

For plastic or metal mounting brackets, blanking plugs, manual or automatic air vents, drain/fill valves and ball valves as shown in the schematic overleaf please refer to section 9 Manifold Accessories and section 16 Ball Valves.

For zone controls please refer to section 12, Zone Controls.
